# When attending an event prompts an overnight stay

Proximity matters.

With **TravelingToGive™**, your event ticketing and registration platform can offer **one-click, proximity-based hotel search and booking—right from your system.**

When attendees register, they'll instantly see hotel options nearby, eliminating the hassle of searching for accommodations.

Our **Smart Trip** tools go beyond lodging, providing drive-time estimates, directions, car rentals, and air travel planning—all in one place.

Keep attendees engaged, simplify their journey, and create lasting impact. Plus, you earn a royalty on every booking and an annual donation to your charity of choice.

TravelingToGive **a solutionz™ venture**

How would integrated, smart trip planning benefit your company?
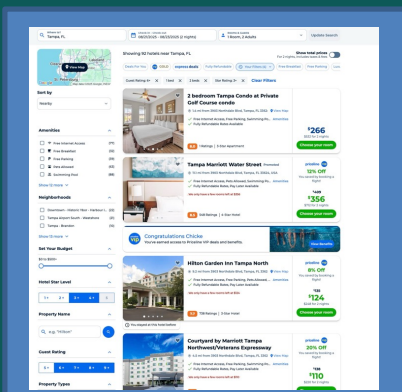

Revenue Growth
Add a new revenue stream that is transactional and recurring to add to your existing base of revenue. Plus the easier it is to get to an event, the more people will come.

Your Clients Will Save Time
No need for your clients to negotiate and manage room blocks (unless that is their preference), plus provides a custom event concierge tool for their events with access to agenda, speakers, sponsors and trade show participants.

Innovate without Investment
Integrated trip planning builds on the infrastructure you have already created for your event managers and venues.

Traveler Benefits

Hotels, plus private lodging options
VIP member discounts
110% best rate guarantee on lodging
24/7 customer service plus curated concierge
