# When a visit to a client or prospect prompts an overnight stay
Proximity matters.

With **TravelingToGive™**, your company offers **one-click, proximity-based hotel search and mapping—right from your CRM.**

When coordinating face-to-face meetings with out-of-town clients or prospects, the question *"Where should I stay?"* is already answered—with an integrated, nearby hotel solution.

Our **Smart Trip** tools go beyond lodging, providing drive-time estimates, directions, car rentals, and air travel planning—all in one place.

Stop sending users to the "travel store" to book travel. **Boost engagement, add value, and create lasting impact.** Plus, you earn a royalty on every booking and an annual donation to your charity of choice.

**TravelingToGive** a solutionz™ venture
